Supplementary Table

This table includes a compilation of all of the solutions implemented to address the “Illegal aliens” subject heading at institutions, broken down by the Integrated Library System or Library Services Platform, and the Discovery layer used by the institutions who provided information about their workflows as of October 2020. When a solution was implemented at a consortial level, it is indicated in the table.

Integrated Library System/Library Services Platform	**Biblionix Apollo**
Discovery Layer	***not disclosed***
Consortium?	**No**
Solutions from survey	One-time change across catalog replacing 'illegal aliens' with 'undocumented immigrants' through global change to bibliographic records; address new records with 'illegal aliens' as they came in either manually by cataloger or through an authorities vendor. Periodic catalog search for 'Illegal aliens'

Integrated Library System/Library Services Platform	**Evergreen**
Discovery Layer	**Blacklight**
Consortium?	**Yes**
Solutions from survey	One-time change across catalog replacing 'illegal aliens' with 'undocumented immigrants' via change to all related authority records; address new records with 'illegal aliens' as they came in either manually by cataloger or through an authorities vendor. Periodic catalog search for 'Illegal aliens'

Integrated Library System/Library Services Platform	**Ex Libris' Alma**
Discovery Layer	**Local Discovery Layer**
Consortium?	**No**
Solutions from survey	Implement changes using a normalization rule in Alma: removal of LCSH "Illegal aliens" and related headings in local bib records and replace with local heading "Undocumented immigrants" (650 _7 $2 local). Use three normalization rules: one for existing local bib records, one for new recordings exported hereafter, and one for shared e-resource records (where the rule will be applied in Primo instead of Alma). All processes will be one-time with no ongoing maintenance expected.

Integrated Library System/Library Services Platform	**Ex Libris' Alma**
Discovery Layer	**Primo**
Consortium?	**No**
Solutions from survey	One time, local authority changes: Illegal aliens to Undocumented immigrants. (including Detention centers for iIlegal aliens, Children of iIlegal aliens, Women iIlegal aliens) Illegal alien children to Undocumented immigrant children Alien detention centers to Detention centres for undocumented immigrants Alien criminals to Undocumented immigrant criminals

Integrated Library System/Library Services Platform	**Ex Libris Voyager**
Discovery Layer	**Blacklight**
Consortium?	**No**
Solutions from survey	One-time change across catalog adding alternative local headings 'illegal aliens' with 'undocumented immigrants' through global change; address new records with 'illegal aliens' as they come in

Integrated Library System/Library Services Platform	**Ex Libris' Voyager**
Discovery Layer	**VuFind**
Consortium?	**No**
Solutions from survey	One-time change of all instances of "illegal aliens" to "undocumented immigrants" in the discovery layer. We also changed some other potentially confusing heading using the word "alien." In some cases it was changed to "non-citizen"; i.e. "non-citizen criminal." Because the change is made as part of discovery layer indexing, the original records do not have to be edited and new records will automatically be adjusted.

Integrated Library System/Library Services Platform	**Follett Destiny**
Discovery Layer	**Destiny Discover**
Consortium?	**No**
Solutions from survey	One-time change across catalog replacing 'illegal aliens' with 'undocumented immigrants' through global change to bibliographic records; address new records with 'illegal aliens' as they came in either manually by cataloger or through an authorities vendor. Periodic catalog search for 'Illegal aliens'

Integrated Library System/Library Services Platform	**Innovative Millennium**
Discovery Layer	**Ebsco Discovery Service**
Consortium?	**Yes**
Solutions from survey	One-time change across catalog replacing 'illegal aliens' with 'undocumented immigrants' through global change; address new records with 'illegal aliens' as they came in either by cataloger or through an authorities vendor
	Delete all LCSH authority records containing 'Illegal aliens'. Create local authority records to replace the 'Illegal aliens' usage pattern, and added 450s to redirect and 'Illegal aliens' search to the preferred term used in the catalog, this allows all imported records to flip to local headings with Automatic Authority Control. In documentation, maintain a list of local headings.
	Add a non-MARC subject field with 'Undocumented immigrants' to records with the SH 'Illegal aliens' but did not remove 'Illegal aliens'

Integrated Library System/Library Services Platform	**Innovative Polaris**
Discovery Layer	**None**
Consortium?	**Yes**
Solutions from survey	One-time change across catalog adding alternative local headings 'illegal aliens' with 'undocumented immigrants' through global change; address new records with 'illegal aliens' monthly.

Integrated Library System/Library Services Platform	**Innovative Sierra**
Discovery Layer	**Blacklight**
Consortium?	**Consortium Discovery Layer only**
Solutions from survey	Change display of 'Illegal aliens' in discovery layer only.
	Global updates periodically to add alternative local subjects headings to 'Illegal aliens.'

Integrated Library System/Library Services Platform	**Innovative Sierra**
Discovery Layer	**Ebsco Discovery Layer**
Consortium?	**Yes**
Solutions from survey	Remove any usage of the term 'Illegal aliens' and related terms in bibliographic records, as well as remove authority records. Create local authority records to replace 'Illegal aliens' usage pattern and added 450s to redirect any 'Illegal aliens' search to the preferred term used in calatog. All imported records should be flipped to local headings with Automatic Authority Control. Run period checks (biannually during summer/winter breaks) to check for 'Illegal aliens' and maintain list of local headings in documentation.

Integrated Library System/Library Services Platform	**Innovative Sierra**
Discovery Layer	**None**
Consortium?	**No**
Solutions from survey	Monthly/Bimonthly global change of headings by cataloger applied to bilbiographic records only: Aliens > Noncitizens; Illegal aliens > Undocumented immigrants; Alien detention centers > Immigrant detention centers; Children of illegal aliens > Children of undocumented immigrants; Illegal alien children > Undocumented immigrant children; Illegal aliens in literature > Undocumented immigrants in literature; Women illegal aliens > Women undocumented immigrants.

Integrated Library System/Library Services Platform	**Innovative Sierra**
Discovery Layer	**Summon**
Consortium?	**Both**
Solutions from survey	[Single library] One-time change across catalog adding alternative local headings 'illegal aliens' with 'undocumented immigrants' through global change; address new records with 'illegal aliens' monthly.
	[Consortium] One-time change across catalog replacing 'illegal aliens' with 'undocumented immigrants' through global change to bibliographic records; address new records with 'illegal aliens' as they came in either manually by cataloger or through an authorities vendor. Periodic catalog search for 'Illegal aliens'

Integrated Library System/Library Services Platform	**Koha**
Discovery Layer	**Summon**
Consortium?	**Yes**
Solutions from survey	Global authority record change from 'Illegal alien' to 'Undocummented immigrant' in all related authority records. There were punction and capitalization differences over a relatively small (21) set of authority records. One time change, with intent to re-run batch change occassional to fix and missed (or new) records.

Integrated Library System/Library Services Platform	**Library World**
Discovery Layer	***not disclosed***
Consortium?	**No**
Solutions from survey	One-time change across catalog replacing 'illegal aliens' with 'undocumented immigrants' through manual change to bibliographic records; address new records with 'illegal aliens' as they came in either manually by cataloger. Periodic catalog search for 'Illegal aliens'

Integrated Library System/Library Services Platform	**OPALS**
Discovery Layer	**None**
Consortium?	**None**
Solutions from survey	One-time change across catalog replacing 'illegal aliens' with 'undocumented immigrants' or 'Noncitizens' through global change to bibliographic records; address new records with 'illegal aliens' as they came in either manually by cataloger. Periodic catalog search for 'Illegal aliens'. Process dependent on institutional memory.

Integrated Library System/Library Services Platform	**SirsiDynix Horizon**
Discovery Layer	**BiblioCommons**
Consortium?	**Yes**
Solutions from survey	Global change in authority records follow Library of Congress' original recommendation to change all 'Illegal aliens' heading to 'Undocumented citizens' and other headings referring to humans as 'Aliens' to 'Noncitizens.' New records are accounted for - local authority records flip any headings that aren't first-time unique to the system, and also run a MARCedit task on some records to make the change before batch imports. In addition, run monthly checks to see whether any new headings have slipped notice and manually fix them.

Integrated Library System/Library Services Platform	**SirsiDynix Horizon**
Discovery Layer	**Ebsco Discovery Layer**
Consortium?	**Yes**
Solutions from survey	Add global "See also" references. Illegal aliens, see: Undocumented immigrants; Undocumented aliens, see: Undocumented immigrants; Children of illegal aliens, see: Children of undocumented immigrants; Resident aliens, see: Foreign residents; Aliens--Employment, see: Foreign workers; Alien labor, see: Foreign workers. Maintaining changes as new records are added.

Integrated Library System/Library Services Platform	**SirsiDynix Horizon**
Discovery Layer	**Enterprise**
Consortium?	**Yes**
Solutions from survey	One-time change across catalog replacing 'illegal aliens' authority records with alternative local headings 'undocumented immigrants' through global change; address new records with 'illegal aliens' as part of MarcEdit tasklist.

Integrated Library System/Library Services Platform	**SirsiDynix Horizon**
Discovery Layer	**None**
Consortium?	**No**
Solutions from survey	Global change in bibliographic records replacing 'Illegal aliens' with 'Noncitizens' in all instances. New items are addressed as they come in.

Integrated Library System/Library Services Platform	**SirsiDynix Symphony**
Discovery Layer	**Enterprise**
Consortium?	**Yes**
Solutions from survey	Illegal aliens changed to Undocumented immigrants (and in all related headings); Aliens to Noncitizens; Alien detention centers to Immigrant detention centers; Alien property to Foreign property. Changes made in all existing records, and workflow in place for all new records.
	One-time change across catalog adding alternative local headings with 'undocumented immigrants' (with various subfield and versions of the headings) through global change; address new records with 'illegal aliens' as they come in.

Integrated Library System/Library Services Platform	**SirsiDynix Symphony**
Discovery Layer	**Blacklight**
Consortium?	**No**
Solutions from survey	Global change in bibliographic records adding local subject headings (690) with "Undocumented aliens" & "Noncitizens" in the place of "Illegal aliens" and "Aliens" in the near future. Tech services staff are making changes in existing records, new records will be enhanced by authorities vendor

Integrated Library System/Library Services Platform	**SirsiDynix Workflows**
Discovery Layer	**Blacklight**
Consortium?	**Yes**
Solutions from survey	Re-mapped the subject heading to "Undocumented immigrants" in our discovery layer, keeping the authorized heading in our ILS. Since the heading itself is re-mapped in the discovery layer, it accounts for any record that comes into the discovery layer, new and old.

Integrated Library System/Library Services Platform	**SirsiDynix Workflows**
Discovery Layer	**Bibliocommons**
Consortium?	**No**
Solutions from survey	Completed an assessment of which authority records contained 'Illegal alien(s)' and duplicated those records to create local authortiy records with a 450 for the original terms, replaced 'Illegal aliens' with 'Undocumented immigrants' in all cases. Added a public 680 note in the authority record that said "A local subject heading implemented by XXX Library in place of [original subject term], deleted control number to prevent quarterly authortiy updates from overlaying the modified records. Updated bibliographc records by hand (only 150 in catalog). Still working to capture cross-references (550) to the removed subject terms, but investigating using API to find the cross-referenced terms and update manually. The authority record changes are a one-time change, but any new records will be updated as they are added to the catalog. A report will run to capture any record containing the phrase "illegal alien" or "illegal aliens" so that they can be corrected. Also monitoring cross-references and any new subject headings during our quarterly authority updates and make changes as needed.
