ALA Midwinter GODORT Committee Highlights

Education Committee Meeting Summary

The Education Committee met to discuss ongoing work on the Voting & Election Toolkits, Racism in Government research guide, and Help! I'm an Accidental Government Librarian webinar series. It was agreed that the Education Committee would solicit volunteers to help maintain and update the Voting & Election Toolkits and a Google Form would be created for users of the toolkits to suggest changes. Work on the tentatively titled Racism in Government research guide will restart this winter with a focus on federal government documents related to voting. The working group on that guide will meet to chart a course forward.—*Kian Flynn, Chair, Education Committee*

Legislation Committee Meeting Summary

The Legislation Committee discussed GPO's proposed revisions to Title 44, including potential impact on the FDLP. The Committee also reviewed a two-page overview of the FDLP created by GPO to communicate with Members of Congress, and discussed possible strategies for GODORT to improve support for advocacy. Additionally, the Committee discussed an initial draft proposal to initiate a GODORT preservation grant program. —*Shari Laster, Chair, Legislation Committee*
