Index

Volume 40, 1996

Compiled by Edward Swanson

General Procedures Used in Compiling the Index

The following types of entries are included:

a. authors—of articles, reviews, and letters
b. titles—of articles and of articles about which letters were published
c. subjects—of articles and of books reviewed

Subject entries for individuals are identified by "(*about*)"; letters are identified by "(*c*)."

Reviews are indexed by name of reviewer and by subject of the work reviewed, identified by "(*r*)." They are also listed by title under the heading "Books reviewed."

Entries are arranged word by word following the "file-as-spelled" principle. Numbers are arranged before alphabetical characters; acronyms without internal punctuation are arranged as words.

Subject headings are based on: *ASIS Thesaurus of Information Science and Librarianship,* edited by Jessia L. Milstead (Medford, N.J.: Published for the American Society for Information Science by Learned Information, Inc., 1994).

Paging of Volume 40:
Pages 1–104 = Number 1 (January)
Pages 105–200 = Number 2 (April)
Pages 201–296 = Number 3 (July)
Pages 297–392 = Number 4 (October)
