Instructions for Authors

Library Resources and Technical Services (LRTS) is the official journal of the Association for Library Collections and Technical Services (ALCTS), a division of the American Library Association. The following statement of editorial policy was adopted by the ALCTS Board of Directors, April 1998.

Purpose

The purpose of LRTS is to support the theoretical, intellectual, practical, and scholarly aspects of the profession of collection management and development, acquisitions, cataloging and classification, preservation and reformatting, and serials, by publishing articles (subject to double-blind peer review) and book reviews, and editorials and correspondence in response to the same.

Audience

The audience for LRTS includes practitioners, students, researchers, and other scholars with an interest in collection development and technical services and related activities in all types of libraries.

Frequency

LRTS is published quarterly, with the volume calendar corresponding to the calendar year. Numbers appear in January, April, July, and October.

Scope

The editor of LRTS, with the assistance of an editorial board, strives to achieve a balance among the articles published in the journal so that the interests of each of the sections of ALCTS (Acquisitions, Cataloging and Classification, Collection Management and Development, Preservation and Reformatting, Serials) is represented in the journal. Articles on technology, management, and education, e.g., are appropriate to the journal when the application of these is to issues of interest to practitioners and researchers working in collection development and technical services. The scope of the articles published in LRTS is also guided by the Mission and Priorities Statement adopted by the ALCTS Board of Directors in 1990.

Content

The content of LRTS is to include:

1. Articles that further the advancement of knowledge by reporting the results of research or other scholarly activity.
2. Periodic literature review essays that discuss issues and trends.
3. Notes that report unique or evolving technical processes.
4. Notes that report unique or evolving research methods.
6. A brief, factual, annual statement of the association’s accomplishments.

LRTS is not an appropriate forum for brief reports on new products, new services, or other current news items.
