Order Form

YES, please reserve my 2001 subscription to Library Technology Reports in print.

COMPLETE THE ORDER FORM BELOW AND MAIL OR FAX IT TO:

Judy Foley, Circulation Manager,
Library Technology Reports, ALA TechSource,
50 East Huron Street, Chicago, IL 60611-2795
fax: 312-944-8741. Or, visit www.techsource.ala.org

To order individual issues, contact Ms. Foley by telephone at 800-545-2433, ext. 4272 or 312-280-4272 or via e-mail at jfoley@ala.org

ANNUAL SUBSCRIPTION RATES

- United States \$300
- Canada, Mexico \$315 (US)
- Other \$350 (US)

American Library Association members receive a 10% discount.

Jan/Feb Digital Imaging Technology

by Richard Boss

An overview of image-delivery technology, plus an update about which image formats are growing in prominence and universality and which formats are on the wane.

Mar/Apr Alternatives to Filters

by Nancy Kalikow Maxwell

What are the choices that librarians must make? What products are out there, who is making these products, and how do they work? What is in development? What works within your library's parameters?

May/Jun Network Checklist for Library Intranets and Internet

by David Barber

What a library needs, in terms of hardware, in order to have the latest network capabilities, plus a discussion of other logistical electronic software and hardware covering products like lockdown software on public terminals.

Jul/Aug Accessibility Guidelines for Electronic Resources

by Barbara Mates

Guides for making Web sites and electronic interfaces compliant with current

needs and ADA standards plus an overview of voice recognition software and the state of development in natural language technologies.

Sep/Oct Assembling and Managing Virtual Libraries

by Barbara D'Angelo

At least four states support virtual library systems in some form. A case study of virtual library systems, and a look at the real technical aspects of establishing a virtual library.

Nov/Dec Library Ergonomics and Facilities Planning

by Richard Boss

In light of many recent lawsuits, how to plan your library, from workstation height and size to different types of lighting needed in different areas (e.g., lighting needs in the stacks differ from those in the computer lab).
