On the Move with the Mobile Web: Libraries and Mobile Technologies
Ellyssa Kroski

Quick-Response Barcodes

In order to utilize this section, you must first find and install a 2D barcode reader on your phone. You can look up your phone model and retrieve the link to download the free application and installation instructions on the Semapedia Web site at www.semapedia.org. Then simply start the program and point your camera phone at any one of these codes.
